START MISSION, SERVE NATION

Saraj Foundation

Saraj Foundation is a youth-led organization.

The meaning of Saraj is 'Ray of Sunlight'. Youths of Saraj are united like rays of sun to serve humanity. Saraj was found on 14th June 2019 by Deepika Arya with a strong passion for making the easiest path for youth to engage in personal growth and social work.

The organization provides a platform to the socially conscious youth for building a new model for serving humanity based on transformational education, love and unity. Saraj has a team of over one hundred students, volunteers and professionals who mentor and educate the youth across India and give them a better future, which will benefit them as well as humanity.

Saraj has started 13 different missions so far on Education, Personal growth, women empowerment, skill development, healthcare, etc., which is led by zealous youth across India.

Every youth has a vision for social change and deserves right guidance for a brighter future. That is why we are fiercely committed to giving platform for our youth to "START MISSION AND SERVE NATION".

In the next 3 years, Saraj Foundation's objective is to build a digital platform for all those enthusiastic youths out there, who have the capability and will for social work. This platform will make social service possible even while sitting at home.

We are looking to build a new model for serving humanity based on transformational education, love and unity.
